I have seen some of it plotted on a presentation that Cabot gave us. The one I saw plotted were identified as non-Marcellus.

Look forward to chatting later. I will be meeting with residents for a good part of day and think the best time to talk will be around 130 or so...

Ralph, please find Cabot isotopic data for some of the residents in the study area.

Hi Rich,

Per your request, please see the attached files. I apologize but I don't feel comfortable giving out **Ex. 6 - Personal Privacy** personal email address because I don't know him and I don't know if he uses it for business purposes – I only have it because it was included in an email that was forwarded to me by someone else. His LinkedIn page is [here](#) and I think the address and phone number for his consulting business is [here](#). Hope this helps!

Seth
